The Alsdorf family have had the unique ability to breed profitable, high scoring, dairy cattle without following fads ie: High PD fads, High Type or any of the others. Just bloodlines from true cow families. Even the cross breeds are sired by sons from the "Little" Family and daughters from the "Kim" Family.

We recognize that 6:15 PM may be an inconvenient time for many, however to ensure that the cattle are able to go to your home farm & milk as much or more than here. We pictured the cows at 10.5 hrs so as not to interfere w/milking schedule & will sell them 12 hrs from their morning milking time.

Full sisters sired by Defiant from an excellent 92 Advent from the excellent 94 "Jolt Little" cow. Liston on the left is serviced to Braxton & Las Red on right is due 10/8 to Thoreau-Et. You will love the frames and feet and legs of this pair once you have the opportunity to see them.
